SAFE AT THE STADIUM

"We needed dispensers with a certain capacity as we usually host a significant number of guests in a single day. And while we were at it, we might as well go for something elegant, exclusive-looking and in line with our visual identity. The customised BJÖRK dispensers fit all of the above".

Morten Hørby Andersen
Head of Sales and Marketing, Randers FC

BOLIA CHOSE LOKI

"It took us quite some time to find the right disinfection dispenser. There are so many different options on the market, but there are not many well-designed solutions".

Thomas F. Schelander
Concept Design Manager, Bolia HQ

CAMP ADVENTURE

"The possibility to customise was a major selling point. Our visual brand identity is very important to us and being able to adapt the products to match our DNA brand colour scheme and enhance the seamless style we were looking for suited our needs perfectly. The harmonisation was the finishing touch creating a unique look and feel in our toilet interior design".

Kate Imogeen Wood
Head of Concepts & Creative Development,
Camp Adventure

JAKOB'S CAFÉ

"The existing hand dryers and toilet roll holders worked flawlessly. We just needed to have them painted to make them blend perfectly into the new surroundings. It has turned out really great and I'm happy that we found a sustainable solution".

Jakob Sund
Owner, Jakob's Café

BJÖRK BY THE SEA

"BJÖRK was recommended by the architects who designed the centre. The first-time investment is higher than we actually budgeted for – but we trust quality will pay off in the long run. The products are sustainable, robust, and of high quality – a perfect match for the new centre".

Esben Colding Broe
Project Manager, Nationalpark Thy

CHILD-FRIENDLY

"The seamless integration made possible by the custom colour ensures that the dispensers blend into the store's surroundings. They are placed at a height where children can reach them and the Elegance dispensers from DAN DRYER will from now on enable good hand hygiene for customers of all ages in all new Hummel Kids stores".

Kresten Skjødt
Head of Retail, Hummel

CUSTOMISATION

A customised disinfection solution is an eye-catcher in any public indoor environment.

Whether you want to encourage better hygiene, send a message, or add your logo, the dispenser is only successful if it is used.

Dispensers and stands can be customised in your brand colours to fit into your surroundings.

BJÖRK AT MUSEUM

"It has been very difficult to find an elegant, functional, and long-lasting solution. DAN DRYER had exactly what we were looking for. From the visitor satisfaction feedback, we know that our guests are very happy that safe hand sanitizer solutions are available throughout the museum. In addition, colleagues from other museums are curious to know how to get similar solutions".

Lotte Korshøj
Museum Director, Carl-Henning Pedersen & Else Alfelts Museum

165 YEAR OLD HOTEL

"The DAN DRYER hand dryers and dispensers combine elegance and functionality. The design line is aesthetically pleasing to the eye and makes a discrete statement alongside the terrazzo flooring and metro tiles as seen in metro stations at the turn of the century".

Sven Nørskov Eskildsen
Hotel Manager, Hotel Randers

LA GLACE

"For the oldest confectioner, La Glace, in Denmark, we needed an efficient, compact hand dryer with a simple design that could blend in with our unique, historical interior."

Another argument for choosing BJÖRK from DAN DRYER was the option of being able to specify a special colour, which had to be our own classic La Glace-green".

Marianne Stagetorn Kolos
Managing Director, La Glace
